RECEIVED

MAR 24 2009

Hi Doug I'll send these pictures as reduced file sizes.

If you want bigger sharper I'll send them again as full size JPG but they will take a long time to download.

I still haven't seen my February check I'm guessing they are slow, but I can send the invoice again if you didn't get it.

Here are the pictures. My back is aching. I'm really out of shape. I only shoveled for 3 hours or a little more. Had a lot of big rocks I was glad I brought a steel pry bar.

That fire that went through burned up the top of the HDPE pipe. We had two other HDPE culverts that did the same thing. I think we lost 30 to 40 feet of HDPE and then when it caved in the rocks and dirt went on down and plugged up the pipe. I can fix it with a track hoe and one other guy.

If the state wants me to do it. I'd like to wait a little while and let the flow slow down a little.

I need to go over to Scholzens in Hurricane and see what they have for supplies to repair it.
